PECO's Safe Harbor Statement

This presentation contains certain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. Phillips Edison & Company, Inc. (the "Company") intends such forward-looking statements to be covered by the safe harbor provisions for forward-looking statements contained in the Private Securities Litigation Reform Act of 1995 and includes this statement for purposes of complying with the safe harbor provisions. Such forward-looking statements can generally be identified by the Company's use of forward-looking terminology such as "may," "will," "expect," "intend," "anticipate," "estimate," "believe," "continue," "seek," "objective," "goal," "strategy," "plan," "focus," "priority," "should," "could," "potential," "possible," "look forward," "optimistic," or other similar words. Readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date of this earnings release. Such statements include but are not limited to: (a) statements about the Company's plans, strategies, initiatives, and prospects; (b) statements about the Company's underwritten incremental yields; and (c) statements about the Company's future results of operations, capital expenditures, and liquidity. Such statements are subject to known and unknown risks and uncertainties, which could cause actual results to differ materially from those projected or anticipated, including, without limitation: (i) changes in national, regional, or local economic climates; (ii) local market conditions, including an oversupply of space in, or a reduction in demand for, properties similar to those in the Company's portfolio; (iii) vacancies, changes in market rental rates, and the need to periodically repair, renovate, and re-let space; (iv) competition from other available shopping centers and the attractiveness of properties in the Company's portfolio to its tenants; (v) the financial stability of the Company's tenants, including, without limitation, their ability to pay rent; (vi) the Company's ability to pay down, refinance, restructure, or extend its indebtedness as it becomes due; (vii) increases in the Company's borrowing costs as a result of changes in interest rates and other factors; (viii) potential liability for environmental matters; (ix) damage to the Company's properties from catastrophic weather and other natural events, and the physical effects of climate change; (x) the Company's ability and willingness to maintain its qualification as a REIT in light of economic, market, legal, tax, and other considerations; (xi) changes in tax, real estate, environmental, and zoning laws; (xii) information technology security breaches; (xiii) the Company's corporate responsibility initiatives; (xiv) loss of key executives; (xv) the concentration of the Company's portfolio in a limited number of industries, geographies, or investments; (xvi) the economic, political, and social impact of, and uncertainty relating to, pandemics or other health crises; (xvii) the Company's ability to re-lease its properties on the same or better terms, or at all, in the event of non-renewal or in the event the Company exercises its right to replace an existing tenant; (xviii) the loss or bankruptcy of the Company's tenants; (xix) to the extent the Company is seeking to dispose of properties, the Company's ability to do so at attractive prices or at all; and (xx) the impact of inflation on the Company and on its tenants. Additional important factors that could cause actual results to differ are described in the filings made from time to time by the Company with the SEC and include the risk factors and other risks and uncertainties described in the Company's 2022 Annual Report on Form 10-K, filed with the SEC on February 21, 2023, as updated from time to time in the Company's periodic and/or current reports filed with the SEC, which are accessible on the SEC's website at www.sec.gov. Therefore, such statements are not intended to be a guarantee of the Company's performance in future periods. Except as required by law, the Company does not undertake any obligation to update or revise any forward-looking statement, whether as a result of new information, future events, or otherwise.

Non-GAAP Disclosures

The Company presents Same-Center NOI as a supplemental measure of its performance. The Company defines NOI as total operating revenues, adjusted to exclude non-cash revenue items, less property operating expenses and real estate taxes. For the three and six months ended June 30, 2023 and 2022, Same-Center NOI represents the NOI for the 262 properties that were wholly-owned and operational for the entire portion of all comparable reporting periods. The Company believes Same-Center NOI provides useful information to its investors about its financial and operating performance because it provides a performance measure of the revenues and expenses directly involved in owning and operating real estate assets and provides a perspective not immediately apparent from net income (loss). Because Same-Center NOI excludes the change in NOI from properties acquired or disposed of after December 31, 2021, it highlights operating trends such as occupancy levels, rental rates, and operating costs on properties that were operational for all comparable periods. Other REITs may use different methodologies for calculating Same-Center NOI, and accordingly, PECO's Same-Center NOI may not be comparable to other REITs. Same-Center NOI should not be viewed as an alternative measure of the Company's financial performance as it does not reflect the operations of its entire portfolio, nor does it reflect the impact of general and administrative expenses, depreciation and amortization, interest expense, other income (expense), or the level of capital expenditures and leasing costs necessary to maintain the operating performance of the Company's properties that could materially impact its results from operations. Nareit FFO is a non-GAAP financial performance measure that is widely recognized as a measure of REIT operating performance. The National Association of Real Estate Investment Trusts ("Nareit") defines FFO as net income (loss) computed in accordance with GAAP, excluding: (i) gains (or losses) from sales of property and gains (or losses) from change in control; (ii) depreciation and amortization related to real estate; and (iii) impairment losses on real estate and impairments of in-substance real estate investments in investees that are driven by measurable decreases in the fair value of the depreciable real estate held by the unconsolidated partnerships and joint ventures. Adjustments for unconsolidated partnerships and joint ventures are calculated to reflect Nareit FFO on the same basis. The Company calculates Nareit FFO in a manner consistent with the Nareit definition. Core FFO is an additional financial performance measure used by the Company as Nareit FFO includes certain non-comparable items that affect its performance over time. The Company believes that Core FFO is helpful in assisting management and investors with the assessment of the sustainability of operating performance in future periods, and that it is more reflective of its core operating performance and provides an additional measure to compare PECO's performance across reporting periods on a consistent basis by excluding items that may cause short-term fluctuations in net income (loss). To arrive at Core FFO, the Company adjusts Nareit FFO to exclude certain recurring and non-recurring items including, but not limited to: (i) depreciation and amortization of corporate assets; (ii) changes in the fair value of the earn-out liability; (iii) amortization of unconsolidated joint venture basis differences; (iv) gains or losses on the extinguishment or modification of debt and other; (v) other impairment charges; (vi) transaction and acquisition expenses; and (vii) realized performance income. Nareit FFO and Core FFO should not be considered alternatives to net income (loss) under GAAP, as an indication of the Company's liquidity, nor as an indication of funds available to cover its cash needs, including its ability to fund distributions. Core FFO may not be a useful measure of the impact of long-term operating performance on value if the Company does not continue to operate its business plan in the manner currently contemplated. Accordingly, Nareit FFO and Core FFO should be reviewed in connection with other GAAP measurements and should not be viewed as more prominent measures of performance than net income (loss) or cash flows from operations prepared in accordance with GAAP. The Company's Nareit FFO and Core FFO, as presented, may not be comparable to amounts calculated by other REITs. Nareit defines Earnings Before Interest, Taxes, Depreciation, and Amortization for Real Estate ("EBITDARE") as net income (loss) computed in accordance with GAAP before: (i) interest expense; (ii) income tax expense; (iii) depreciation and amortization; (iv) gains or losses from disposition of depreciable property; and (v) impairment write-downs of depreciable property. Adjustments for unconsolidated partnerships and joint ventures are calculated to reflect EBITDARE on the same basis. Adjusted EBITDARE is an additional performance measure used by the Company as EBITDARE includes certain non-comparable items that affect the Company's performance over time. To arrive at Adjusted EBITDARE, the Company excludes certain recurring and non-recurring items from EBITDARE, including, but not limited to: (i) changes in the fair value of the earn-out liability; (ii) other impairment charges; (iii) amortization of basis differences in the Company's investments in its unconsolidated joint ventures; (iv) transaction and acquisition expenses; and (v) realized performance income. The Company uses EBITDARE and Adjusted EBITDARE as additional measures of operating performance which allow it to compare earnings independent of capital structure, determine debt service and fixed cost coverage, and measure enterprise value. Additionally, the Company believes they are a useful indicator of its ability to support its debt obligations. EBITDARE and Adjusted EBITDARE should not be considered as alternatives to net income (loss), as an indication of the Company's liquidity, nor as an indication of funds available to cover its cash needs, including its ability to fund distributions. Accordingly, EBITDARE and Adjusted EBITDARE should be reviewed in connection with other GAAP measurements and should not be viewed as more prominent measures of performance than net income (loss) or cash flows from operations prepared in accordance with GAAP. The Company's EBITDARE and Adjusted EBITDARE, as presented, may not be comparable to amounts calculated by other REITs.

Grocery-Anchored Portfolio

Grocery-Anchored Centers Benefit from Trends that Provide Strong Tailwinds

Necessity-Based

- Consumer staple goods and services that are indispensable for day-to-day living
 - 71% of PECO ABR from necessity-based goods and services retailers⁽¹⁾
- Recession-resistant across multiple cycles
- Highly resilient with minimal exposure to distressed retailers
- Only 0.7% of occupancy loss in 2020 and 1.8% of occupancy loss during the Global Financial Crisis

High Traffic

- U.S. consumers visit grocery stores 1.6 times per week⁽²⁾
- Approximately 23,000 average total trips per week to each PECO center⁽³⁾
- We believe strong foot traffic benefits inline Neighbor sales and enhances our ability to increase rents

Omni-Channel

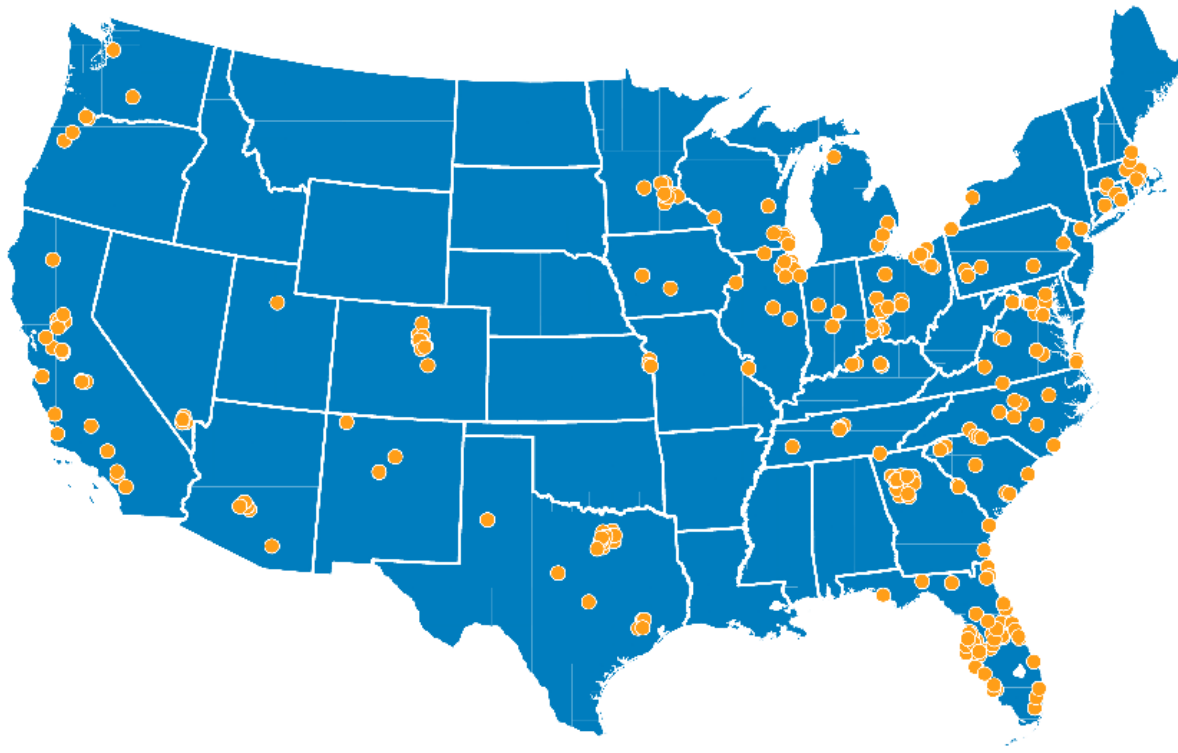

- PECO centers are a critical component of our Neighbors' omni-channel strategies and provide an attractive last-mile solution
 - ~96% of portfolio with *Front Row To Go*TM curbside pick-up program⁽⁴⁾
 - ~91% of PECO grocers offer BOPIS option (Buy Online, Pick-Up In Store)⁽⁴⁾
- Economics of e-grocery delivery remain unattractive
- Grocer pickup sales are expected to grow at a 5-year nominal CAGR of 13.6%⁽⁵⁾

■ PECO Market

Smart Retailers are Getting Ahead of the Secondary Market Trend

Retailers Saw Higher Visits Per Location in Secondary Markets

Chipotle: Raised its long-term store base target from 6,000 units to 7,000 because “smaller market locations have proven to deliver the same or better store-level economics as traditional locations”

Petco: Pet products represents a \$7B total addressable market in secondary markets; “Neighborhood Farm & Pet Supply” format combines traditional pet supplies, livestock merchandise and services such as grooming

Source: Placer.ai

Kohl's: Planned openings for high-growth secondary markets in South Florida, Oklahoma City, North Carolina, Austin, San Antonio and Birmingham that collectively represent 10M households

Fast Food: Strength in secondary markets, combined with Chipotle's new suburban expansion plans incentivize other restaurant chains to expand into smaller cities

Adjustments for uncollectibility	\$3.5 - \$4.5	\$3.0 - \$4.0	\$2.0

1. Represents straight-line rental income and net amortization of above- and below-market leases.

- Nareit FFO / share growth of 6.7% at the midpoint
- Core FFO / share growth of 2.6% at the midpoint
- We expect same-center NOI growth to be aided by our 2022 leasing activity, driving increased occupancy and favorable rent spreads, and our development and redevelopment activity
- Average estimated yield between 9% to 12% on development and redevelopment activity

Core FFO / Share Reconciliation

The following table provides a reconciliation of the range of PECO's 2023 estimated net income to estimated Nareit FFO and Core FFO:

	Updated Guidance	
(Unaudited)	Low End	High End
Net income	\$0.51	\$0.55
Depreciation and amortization of real estate assets	\$1.74	\$1.75
Adjustments related to unconsolidated joint ventures	\$0.02	\$0.02
Nareit FFO / share	\$2.27	\$2.32
Depreciation and amortization of corporate assets	\$0.01	\$0.02
Transaction costs and other	\$0.02	\$0.02
Core FFO / share	\$2.30	\$2.36

The Company does not provide a reconciliation for same-center NOI estimates on a forward-looking basis because it is unable to provide a meaningful or reasonably accurate calculation or estimation of certain reconciling items which could be significant to our results without unreasonable effort.

Performance and Long-Term Growth

PECO's Strong Historical Performance

Record Occupancy Levels are Driving Immediate, Measurable Growth in Our Financial Results

Leased Portfolio Occupancy

- PECO's leased portfolio occupancy has exceeded pre-COVID levels and increased to a record-high 97.8%
 - Inline occupancy: 94.8%
 - Anchor occupancy: 99.4%
 - Economic occupancy spread: 60 basis points

Same-Center NOI Growth⁽¹⁾

- PECO's high retention rates and focus on increasing occupancy, driving leasing spreads, executing redevelopment projects and implementing rent bumps in new leases have driven strong NOI growth

1. Please see reconciliation tables in the appendix of this presentation for more details.

PECO's Strong Historical Performance

Leasing Spreads Demonstrate PECO's Pricing Power and Sustainable Organic Growth

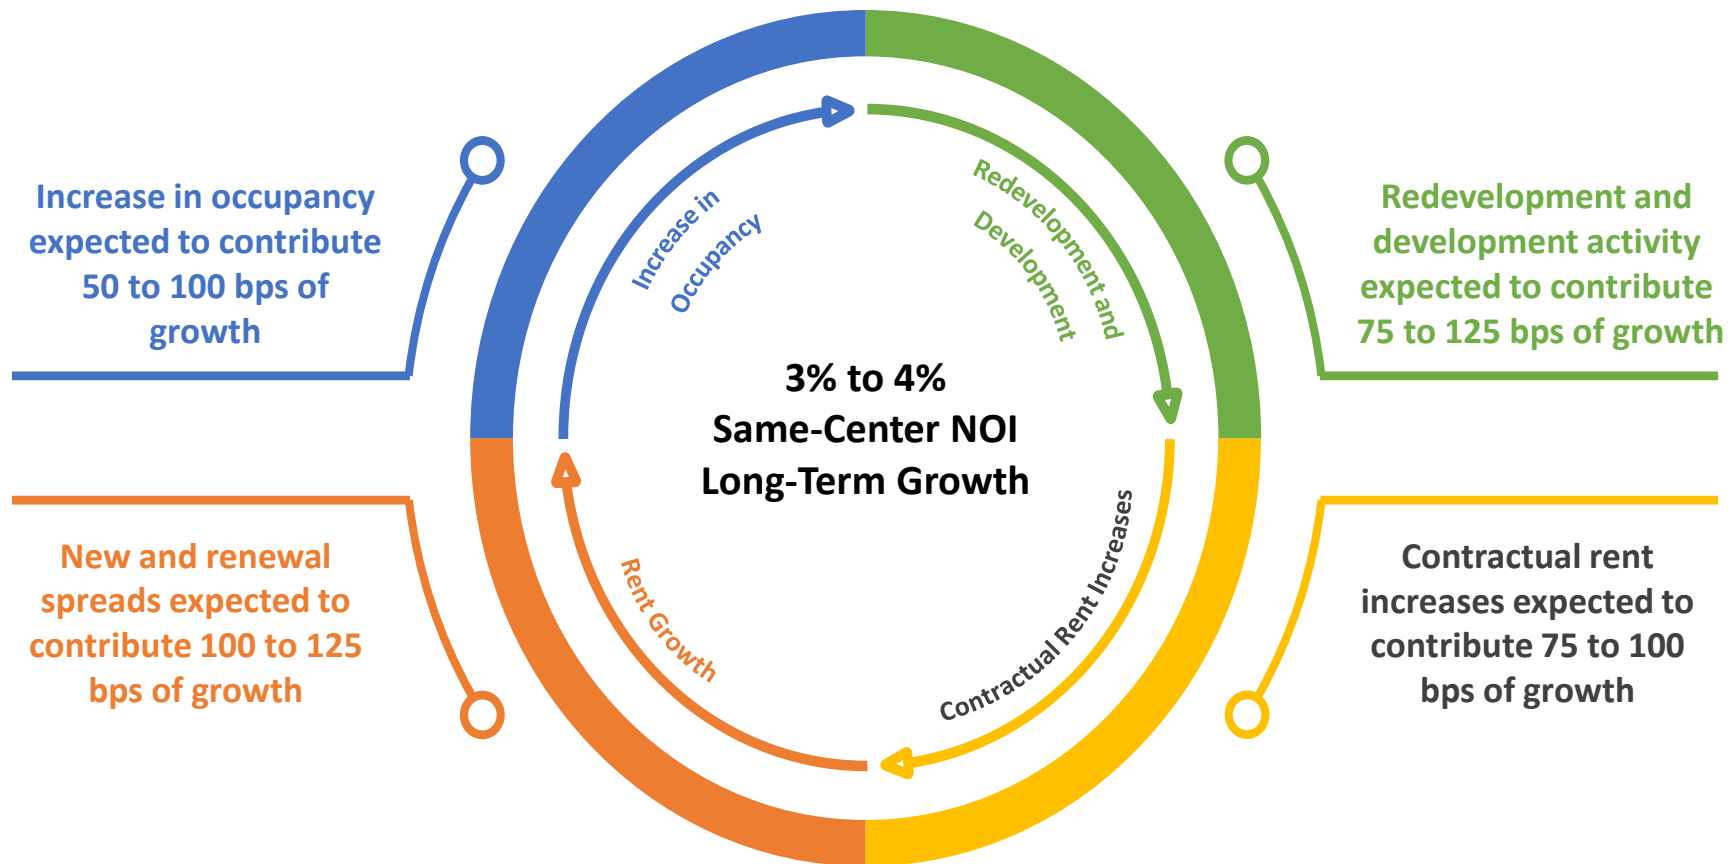

Comparable Leasing Spreads

- PECO's portfolio is at record high occupancy levels, and the resulting pricing power is driving leasing and renewal spreads significantly above previous levels

Roadmap to Our Long-Term Growth

PECO Remains Committed to Delivering Sustainable Organic Long-Term Growth and Value

Corporate Responsibility

Environmentally-Friendly Asset Management

Reducing energy consumption through LED lighting retrofits

- LED retrofits at 249 centers

Reducing water consumption with low flow fixtures and smart irrigation controls

Increasing use of solar panels and EV charging stations at our centers

- 186 EV charging stations installed
- 17 solar roofs installed

Reducing waste through increased recycling at all PECO centers and corporate offices

PECO's Environmental Stewardship

In our ongoing commitment to sustainability, we can highlight the following achievements during 2022:

- ✓ Completion of the retrofit of 92% of our portfolio to LED, which puts us well ahead of our goal to retrofit 100% of our portfolio by 2025
- ✓ 17 solar panels installed at our centers producing over 4.5MW of solar energy
- ✓ Over 55M gallons of water conserved through the implementation of xeriscaping and our "Smart Water Control Program," which in turn has generated cost savings of approximately \$0.9M
- ✓ Establishment of a new waste diversion program aimed at achieving a 25% total diversion rate at eligible properties by 2030
- ✓ Completing the installation of an additional 30 electric vehicle (EV) charging stations at our centers such that we now provide EV charging amenities at 22% of our properties; well ahead of our goal of installing EV amenities at 50% of our eligible properties by 2030
- ✓ Achieved Gold Recognition from the 2022 Green Lease Leaders Program, organized by the Institute for Market Transformation and the U.S. Department of Energy's Better Buildings Alliance, in recognition of our industry-leading efforts in our standard lease agreements to spur collaboration on energy efficiency, decarbonization, cost savings, health and a range of other environmental and social issues

Social Responsibility

Numerous Social Programs for Our Communities and Our Associates

Social Responsibility

Our culture is driven by our team's connection to each other and the communities in which we live and work. Our associates are one of our most valuable resources, and we strive to have an outstanding culture that is collaborative, inclusive and that provides significant opportunities for professional and personal development. Our local teams and property managers are passionate about the Neighbors whom they work with daily and engaging with the shoppers at our centers and the local surrounding communities. Their passion for their work and the communities where we operate helps drive great shopping experiences at our centers and improve the communities in which they are located.

The Company is committed to a culture that is inclusive and that supports a sense of belonging amongst associates. We refer to this commitment as Building Space For All. In building space for all, we strive to cultivate a workplace where diverse perspectives and experiences are welcomed and respected, and where our people feel encouraged to discuss diversity, equity and inclusion.

Glossary of Terms

Anchor space: A space greater than or equal to 10,000 square feet of gross leasable area (GLA).

Annualized base rent (ABR): Refers to the monthly contractual base rent as of the end of the applicable reporting period multiplied by twelve months.

ABR per square foot (PSF): ABR divided by leased GLA. Increases in ABR PSF can be an indication of our ability to create rental rate growth in our centers, as well as an indication of demand for our spaces, which generally provides us with greater leverage during lease negotiations.

Cap Rate: Estimated in-place NOI for the property divided by the property's contractual purchase or sale price

Comparable lease: Refers to a lease with consistent terms that is executed for substantially the same space that has been vacant less than twelve months.

Comparable rent spread: Calculated as the percentage increase or decrease in first-year ABR (excluding any free rent or escalations) on new, renewal and option leases where the lease was considered a comparable lease. This metric provides an indication of our ability to generate revenue growth through leasing activity.

EBITDAre, and Adjusted EBITDAre (collectively, "EBITDAre metrics"): Nareit defines EBITDAre as net income (loss) computed in accordance with GAAP before: (i) interest expense; (ii) income tax expense; (iii) depreciation and amortization; (iv) gains or losses from disposition of depreciable property; and (v) impairment write-downs of depreciable property. Adjustments for unconsolidated partnerships and joint ventures are calculated to reflect EBITDAre on the same basis. To arrive at Adjusted EBITDAre, we exclude certain recurring and non-recurring items from EBITDAre, including, but not limited to: (i) changes in the fair value of the earn-out liability; (ii) other impairment charges; (iii) amortization of basis differences in our investments in our unconsolidated joint ventures; (iv) transaction and acquisition expenses; and (v) realized performance income. We use EBITDAre and Adjusted EBITDAre as additional measures of operating performance which allow us to compare earnings independent of capital structure and evaluate debt leverage and fixed cost coverage.

Equity market capitalization: The total dollar value of all outstanding shares using the closing price for the applicable date.

Grocer health ratio: Amount of annual rent and expense recoveries paid by the Neighbor as a percentage of gross sales. Low grocer health ratios provide us with the knowledge to manage our rents effectively while seeking to ensure the financial stability of our grocery anchors.

Gross leasable area (GLA): The total occupied and unoccupied square footage of a building that is available for Neighbors or other retailers to lease.

Inline space: A space containing less than 10,000 square feet of GLA.

Leased occupancy: Calculated as the percentage of total GLA for which a lease has been signed regardless of whether the lease has commenced or the Neighbor has taken possession. High occupancy is an indicator of demand for our spaces, which generally provides us with greater leverage during lease negotiations.

Net Debt: Total debt, excluding discounts, market adjustments and deferred financing expenses, less cash and cash equivalents.

Net debt to adjusted EBITDAre: Calculated by dividing net debt by Adjusted EBITDAre (included on an annualized basis within the calculation). It provides insight into our leverage rate based on earnings and is not impacted by fluctuations in our equity price.

Net debt to total enterprise value: Ratio is calculated by dividing net debt by total enterprise value. It provides insight into our capital structure and usage of debt.

Net operating income (NOI): Calculated as total operating revenues, adjusted to exclude non-cash revenue items, less property operating expenses and real estate taxes. NOI provides insight about our financial and operating performance because it provides a performance measure of the revenues and expenses directly involved in owning and operating real estate assets and provides a perspective not immediately apparent from net income (loss).

Portfolio retention rate: Calculated by dividing (i) the total square feet of retained Neighbors with current period lease expirations by (ii) the total square feet of leases expiring during the period. The portfolio retention rate provides insight into our ability to retain Neighbors at our shopping centers as their leases approach expiration. Generally, the costs to retain an existing Neighbor are lower than costs to replace with a new Neighbor.

Redevelopment: Larger scale projects that typically involve substantial demolition of a portion of the shopping center to accommodate new retailers. These projects typically are accompanied with new construction and site infrastructure costs.

Same-Center: Refers to a property, or portfolio of properties, that has been owned and operational for the entirety of each reporting period (i.e., since January 1, 2021).

Total enterprise value: Net debt plus equity market capitalization on a fully diluted basis.
